DETAILED ACTION

Receipt is acknowledged of the preliminary amendment and information disclosure statement filed 08/19/2003.

Double Patenting

Claims 1-4, 10-23 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-4, 10-23 of prior U.S. Patent No. 6,635,270. This is a double patenting rejection.

The claims set out the same compound, same method of preparation, and method of treating as those of US Patent No. 6,635,270, and contain the identical limitations to each.

Andino et al is cited as a patent of interest in its disclosure of the use of the compound for the same therapeutic purpose. Note however, that there is no discussion of the significance of keeping free iron or copper ions below a certain level. Col. 3, lines 14-26 are significant in their disclosure of the use of the claimed compound in treating various diseases or syndromes.
